KodeGo

June - October 2022

Developed real-world applications/websites using HTML, CSS, JS, React, Laravel and MySQL.

EXPERIENCES & PROJECTS

Admin Staff   Jun 2019 - Aug 2022

Signtech Marketing Corp.

- Developed Inventory Management System
- Created / Designed 3D and 2D CAD layouts
- Operated laser cutting machine
- Maintained electrical wiring and equipment
- Managed projects

Inventory Management System

PHP, XAMPP, MySQL, JS, HTML/CSS

My first project as a developer. This project taught me a lot about web development from planning to production deployment. In this project, I am responsible for creating the cashiering feature and also the back-end for the whole application.

Learning Management System

React, Laravel, Heroku, Netlify, MySQL

This was our capstone project during the bootcamp. It consisted of 3 members, me as the leader. It enhanced my skills in project management, leadership, and communication. In this project, I also learned about Laravel, React, and how to deploy projects on the web.

KEY SKILLS

- Teamwork and Collaboration
